Easy clean treatment with nano coating

Nano Technology
Easy Cleaning
Anti-mildew
Germ resistant

NanoCoat glass treatment resists water and dirt build up to keep bath and shower doors looking like new. No need for harsh cleaners, just wipe clean with a soft towel. Therefore using nano coated glass can reduce frequency of cleaning, extend glass life cycle, save labor and detergent.

Nano coating glass is a special nano technology product with a Long-term hydrophobic effect on glass surfaces by applying nano coating onto glass to form a surface protection that can reduce static electricity effect, prevent glass from adsorbing dirt and keep glass surface clean.

Series KOST

Kost series are including a shower tray, 5/16"(8mm) thick tempered glass, brush silver aluminum finish and 55mm dia.durable stainless steel roller.

- 1.Stainless steel door handle.
- 2.55mm dia.stainless steel top roller
- 3.Black POM wheel sleeve, heat resistance and wear resistance, good integrated performance.
- 4.Available in Brush Nickel, Brush silver, Chrome and other finishes.
